Bedrooms	2
Bathrooms	2

Description

The Roy Lichtenstein Suite, located in the exclusive Hippiements complex, is a residence that combines contemporary architecture, sophisticated interiors, and outdoor spaces designed to enjoy the Mediterranean climate. Situated on the first floor, it offers partial sea views and a more natural setting toward the rear, featuring a park and mountains. Its 41 m² wrap-around terrace, open to three orientations, allows for the creation of different environments for relaxing, dining al fresco, or enjoying moments of tranquility.

The apartment features 122 m² of interior space distributed into a bright living-dining room, a designer kitchen equipped with Gaggenau and SMEG appliances, two bedrooms, and two bathrooms. The layout incorporates versatile solutions, such as a sliding door system that allows for a third bedroom to be set up when needed. It is sold fully furnished with designer pieces, custom closets, underfloor heating, and air conditioning, attending to both aesthetics and daily comfort.

Hippiements completes the experience with communal facilities including a swimming pool, a spa

with a steam bath, a fully equipped gym, and a barbecue area, in addition to a concierge service. The property includes a private parking space and an electric bicycle, and features a rental management service at no cost to the owner, subject to its terms and conditions.

An especially attractive proposal for those who value design, construction quality, and exclusive services, whether to enjoy a residence in Ibiza or to explore its potential as a real estate investment.
